

Paper 20.75 - Layer-2 Synthesis Ledger Next-State Bridge

CQE-paper-20.75

CQECMPLX Formal Paper Series

Review-facing PDF built 2026-06-13

Construction Basis

This PDF is the clean paper artifact. Source extracts, kernels, receipts, tool notes, workbook material, and package bindings are used as construction evidence; they are not treated as separate review-facing papers.

Evidence Inputs

Paper 20.75 - Layer-2 Synthesis Ledger Next-State Bridge

Purpose

This bridge exports Paper 20 to the applied Forge papers beginning at Paper 21.

Exported State

Paper 20 exports:

```
verified seed ledger
populated terminal registry
reachability status distinction
transport rows with open lifts
validator-gated contribution registry
no automatic status promotion
```

Legal Use In Paper 21

Paper 21 may use the ledger to admit MorphForge, PolyForge, or MorphoniX rows only if each row keeps its witness and proof boundary.

Illegal Use

Do not write:

```
Paper 20 proves all prior claims.
Paper 20 closes unknown rows.
Paper 20 deletes forbidden rows.
Paper 20 turns registry admission into mathematical proof.
```

Recenter Rule

For each later tool row, set:

```
C = row witness
B = row proof boundary
T = route or contribution transform
O = open, forbidden, or transported residue
```

Hidden-Guess Diagnostic

Classify the row first, then reveal the ledger verdict.

Conclusion

Paper 20.75 turns the synthesis ledger into the entry discipline for the next tool family.
